

# Summer Enrichment Program

*Summer Enrichment is available each summer for enrolling students returning to Commonwealth in the Fall and **new** students enrolling for the upcoming year. Classes begin early July and end the first week of August. Students are challenged academically and socially to prepare for global success. Those who attend are better prepared for standardized testing afterward. Lunch and Breakfast is served during this program, free of charge. It's a great start for new students to meet their new educational team and learn our curriculum expectations.*
